

Environmental Policy and Business Forum Future of the Electric Car in Southern California Thursday, May 27, 2010

Please join us for our spring Environmental Policy and Business Forum (EPBF) at the School of International Relations and Pacific Studies (IR/PS) as we discuss policy and practical implications of the future of the electric car in Southern California. For more details and directions, please visit the [EPBF website](#).

- Cost is \$15 for non-students and includes an Hors D'oeuvres reception
- Please register through our secured [registration page](#)

Speakers include:

- **Mike Ferry**

Mike is the Transportation Programs Manager for the California Center for Sustainable Energy (CCSE) and is responsible for the operational management of all activities and functions related to transportation programs at CCSE including the Clean Vehicle Rebate Project (CVRP). He is also responsible for business development within the transportation arena by preparing transportation related grants and proposals consistent with the sustainable energy mission of CCSE.

- **Josh Graff Zivin**

Josh is an Associate Professor of International Relations and Pacific Studies and Affiliated Faculty of Economics. He is also a Research Associate at the National Bureau of Economic Research (NBER) and Research Director for International Environmental and Health Studies at the Institute for Global Conflict and Cooperation (IGCC).

- **Joel Pointon**

Joel is a manager of the Electric Transportation Program for San Diego Gas and Electric which is part of the Sempra Energy Utilities' Clean Transportation. He currently serves as chairperson of the San Diego Clean Fuels Coalition and is a member of the Board of Directors for the Electric Drive Transportation Association (EDTA) and the California Electric Transportation Coalition (CaETC).

The forum is a presentation of Net Impact, the Environmental Policy and Business Forum, and IR/PS.
